

Gmail Rush Privacy & Policy

yahyaparvarx@gmail.com

Last Updated: Dec 14 2024

Thank you for using the Gmail Rush extension! Your privacy is our top priority. This policy explains how we collect, use, and protect your data when you use the Gmail Rush extension. By using the extension, you agree to the practices described below.

Data We Collect

When you use the extension, the following data is temporarily collected and processed:

- The content of the selected email that you choose to summarize.

How We Use Your Data

The email content you provide is sent to our open-source backend, which forwards it directly to OpenAI's ChatGPT API for summarization. The summarization process includes:

- - Generating a brief summary based on the email content.
- - Returning the summarized text to you through the extension.

We do not:

- - Store your email content on our servers.
- - Share your email content with any third party other than OpenAI's ChatGPT API.
- - Use your data for any purpose other than generating summaries.

Data Storage and Retention

We do not store any email content permanently. All data is processed in real-time and discarded immediately after the summarization process is completed.

Security Measures

We take the following measures to protect your data:

- - Communication between the extension and our backend is encrypted using HTTPS.
- - Our open-source backend code is publicly available [here](#), ensuring transparency and allowing for independent verification.

Open Source and Transparency

Our backend is open-source, and any changes to the backend will be notified to users in advance. You can review the backend code at any time to ensure compliance with this policy.

Third-Party Involvement

The only third party involved in processing your data is OpenAI's ChatGPT API, which is used solely for generating summaries. OpenAI's privacy policy governs their handling of data.

User Consent

By using the Gmail Rush extension, you consent to the temporary processing of your email content as described in this policy.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any changes will be communicated to users promptly and will include the updated policy version and date.
